

Comparative Data

How does Weston rank in ability to pay and spending as compared to other Connecticut districts, and similar districts?

COMPARATIVE DATA

This section of the budget book compares Weston with school districts in its Demographic Reference Group - DRG, and with all other districts in the State of Connecticut. The DRG classification clusters school districts that have public school students with similar socioeconomic status and need together for district level comparisons.

- ❖ Comparison of Net Per Pupil Expenditures
- ❖ Comparison of Per Pupil Expenditures by Object
- ❖ Comparison of Per Pupil Expenditures by Function

The State Department of Education provides the following explanation of Net Current Expenditures per Pupil. NCEP measures education expenditures with a couple of adjustments (as explained below) for all the students for which a town is fiscally responsible, regardless of whether the town operates its own school or tuitions its resident students to other districts/regions or private schools.

Average Daily Membership (ADM) represents the average daily membership calculated from the October 1st Public School Information System (PSIS) and from the End of Year School Report (ED001). ADM represents resident students adjusted for school sessions in excess of the 180-day/900-hour minimum, tuition free summer school, full-time equivalent (FTE) prekindergarten pupils and participation in Open Choice.

Net Current Expenditures (NCE) are calculated as defined in Connecticut General Statutes Section 10-261(a)(3). NCE includes all current public elementary and secondary expenditures from all sources, excluding reimbursable regular education transportation, tuition revenue, capital expenditures for land, land buildings and equipment, and debt service. The principal portion of debt service for items that can be included in NCE, such as certain minor repairs and roof replacements, may count towards NCE.

Net Current Expenditure Per Pupil (NCEP) represents NCE divided by ADM.

The NCEP Rank is a town's rank between 1 (highest) and 169 (lowest) in NCEP.
